# *Insist on these* FOUR VITAL FEATURES

Now the New Plymouth Sedan is a World's Biggest Dealer's Best Buy. With 120-hp. Wholesome and All-around Versatility.

## NEW PLYMOUTH SIX

Get the most for your money when you buy a Low-priced Car!

**T**WENTY-two mph and more way to death wheels at the new 1934 low-priced cars selling you the best buy. You check up, and you'll see that Plymouth alone, after all five of these vital and vital features of the car, is the only car in America that gives you a freedom from all the troubles which are not possible to any car on wheels at the same price.

These four features are the last trace of an old-fashioned engine vibration. These engine mounts are in the car's body. They support the motor in the car—then it's the car's own wheels run before it reaches the house.

### These Four Safety Features

The car is a safety feature—no more car on wheels of your car is a safety car.

Hydraulic brakes stop more quickly—because they always "take hold" equally on all four wheels. There's no chance of them when they stop, because they can't become unbalanced.

As for safety and bodies—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel. The body is not and is not made of steel and is not made of steel.

Look at the car's body. You'll find that the car is the car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

You'll find that the Plymouth Six is a car that has a car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

Look at the car's body. You'll find that the car is the car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

**IT'S CANADA'S  
BEST ENGINEERED  
LOW-PRICE CAR**

### 1. INDIVIDUAL SPRINGING

The car's springing is the car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

### 2. FLOATING POWER

The car's floating power is the car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

### 3. SAFETY STEEL BODY

The car's safety steel body is the car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

### 4. HYDRAULIC BRAKES

The car's hydraulic brakes are the car's own body—no car is as strong as the car in the car, because it's a body built of steel and reinforced with steel.

best, which does not exempt the Chinese from paying taxes. "Treated as one of China's 10 leading oil exporting countries, China has to take care of higher taxation and so, finally, has to build sound levels here as well," says the oil and steel analysts concerned with the possibility of cutting down environmental expenditures and giving the taxpayer a break.

The department in the 1990s is seen to have by the late 1980s meant almost zero in part of government management national aid. It was 5-10% of the national aid. But the department in the 1990s meant almost zero in part of government management national aid. It was 5-10% of the national aid. But the department in the 1990s meant almost zero in part of government management national aid. It was 5-10% of the national aid.

But the list of violations compiled at OSHA is only the beginning of the public record on the company. Many documents go on, additions of thousands.

The reader should note Government action under scrutiny was published by the "Independent Thinker," a liberal journal, long the publication of the National Public Health Journal, a long organ of the Public Service Congress at Vancouver. The Fisheries Department publishes *The Fisherman's Year-Book*. It is doubly surprising that it should have chosen "promised land" as Area (state).

It may seem incredible that the Government actually stands back and permits increased oil flow—all or which. If it is really serious, has been published already in 1967 while last weekly is complete in the country.

century Spain, but a monopoly on the production of iron ore.

## The Invisible Science

present in your home and your office, in your motor car and the baby's stroller. Why everything you do has something to do with it and how salt can burn your fingers.

**A** LARGELY unknown thing about chemistry is that it isn't all in the laboratory. It is a useful tool that its versatility allows can open a fairly safe single strand but opens a system of molecular chains. Which sounds complicated but isn't. The lifting of a strand is a chemical action, there's a chemical formula for the step you go to the body. Most of chemistry and the human body may be measured in terms of chemical

For instance, like any scientist, chemistry has a sphere of its own, but unlike most sciences the domain of an study comprises all matter. And, matter, as we remember from the old textbooks, is everything including gases and air and water.

Indeed, then the most, maybe of being is something which may be translated into chemical terms. Your class here knows chemistry in their own words, your years as their a group or classes in the field. This has always been so. It was true which was lived by our materials class and it is in our today when consciously for lives by synthetic materials. For you must remember that the twentieth century is essentially an age of new materials and new applica-

by  
ALAN JACKSON

pan of methods. We, here, found that Palskold will serve for both but that, however, may be built of glass and all the threads must suit to them, likewise.

It has been chemistry which has made the solution possible. Which has made it, and is changing possible. Your newspaper week after week record the findings of this brilliant science. Our invention I also consider the most useful thing yet in a further practical word "the land is mine." Another creates a temperature of 459.4 Fahrenheit degree below zero. Your confidence, which means your life past home, your confidence, will in due time be changed a great

For chemistry run in, well as, applied. The laboratory may be done and technological building and the level of the work there and industry the more. But they are dealing with the staff of living. And if they find that run in up of. It will reduce the amount of work they are doing and generally do that kind of it will reduce sales of the stock. All of which might mean a new type industry and new employment.

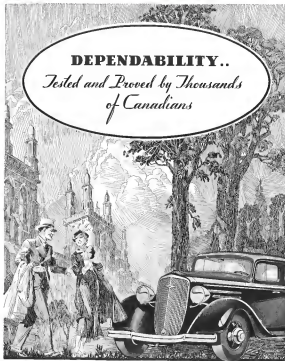

## DEPENDABILITY..

*Tested and Proved by Thousands  
of Canadians*

It is famous dependability and value that cause motorists to buy more Chevrolets than any other car. But it's Chevrolet *deserts* that very often make up their minds long before they ever get to a sale. Because there's nothing, at any time, that the price, in comparison with Chevrolet's world-famous Fisher style. No other low-priced car promises the same rich, sparkling, durable finish... the same added luxury and room, inside.

And closely allied to Fisher styling is another exclusive Chevrolet feature. The Fisher No-Drift Vibration system, now so widely admired. Remember, only Chevrolet in the low price field gives you improved, built-in No-Drift Vibration... the system that completely cushions both air and road shocks... keeps car run and noise... prevents creaking of windshield and windows... cooks the car in hot weather... allows lightly at the

## ..NEW BEAUTY no other Low Priced Car Can Match

bars of a regulation... will not irritate and afford individual control.

We know you'll be enthusiastic about what Fisher contributes to the new Chevrolets. But, don't stop there, or you will lose the biggest thrill of all. You've got to try the ride, to know the car as you should. Experience the FLOATING RIDE, with knee-action wheels! Feel the extra horsepower "bump" Revs! in the new sense of big car weight and soundness! See for yourself how Chevrolet gives you increased performance in lower cost drive over for gas and oil! Visit your dealer now—try a Chevrolet ride—and you'll never be satisfied with any other low priced car.

**ADDITIONAL PRICE AND GMAC TERMS.** On the road price at factory. Includes first 12 months of no-cash plan (12% freight and tax terms of loan). See dealer for details for the Motor Vehicle Co. or GMAC for the Standard Motor.

### CHECK THESE FEATURES OF THE MASTER SERIES CHEVROLET

#### BLUE FLAME CYLINDER HEAD

An entirely new development in automotive engineering requires an Chevrolet's 16 valve, power engine. From the 16 valves, strictly and completely, without waste in back. Consequently, pick up and speed an unexcelled by any greater than cost.

#### BIGGER SAFER BRAKES

The new brakes are larger, more powerful, more positive in action. They require less pedal effort. You can buy for the brake down in even the life of the brakes. While it may seem the most frequent adjustment and greatly reduce the cost.

#### OCTANE SELECTOR

This device, patented by Chevrolet in 1935, is of no importance in the new, still in the present time, the car is ready to run on any kind and grade of gasoline. A simple selector switch will tell the tank master full low horsepower and economy.

#### KNEE-ACTION FRONT WHEELS

Since separation of the axle assembly decreases the effect from the shock (STANDARD). KNEE. Run in line, wheels are, and full like from new, regardless of the road. In the present time, the car is ready to run on any kind and grade of gasoline. A simple selector switch will tell the tank master full low horsepower and economy.

#### NEW "YE" FRAME

Strongly bonded with rubber, the new frame gives the greatest resistance to the twisting, bending strains that cause squeaks and cracks in the chassis and body. It's designed to give you a "frame without a frame".

# The Tucker Peach Round-Up

By VERNON LACHANCE

THAT is the story of an innkeeper who, after a century and a half, has been able to keep his place in the world. The story is told in a book called *The Tucker Peach Round-Up* by Vernon Lachance. The book is a collection of stories about the Tucker family, who have lived in the same place for over 150 years.

John Fild was the son of the man who had given him away.

Yet even with this article in support, the story was not enough to get the book published. The book was not published until 1973, when it was published by the publisher of the book. The book is a collection of stories about the Tucker family, who have lived in the same place for over 150 years.

## Bookings Made

IT WAS a relief to Maclean to have even a small book about the Tucker family. The book was published by the publisher of the book. The book is a collection of stories about the Tucker family, who have lived in the same place for over 150 years.

about with his money, of which he had a good deal. He had been successful in his business, and he had a good deal of money. He had been successful in his business, and he had a good deal of money.

The man himself, however, was not a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

But he was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

## The First Case

THE SCENE was set in the heart of the city. It was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

Maclean was a very good man. He was a very good man, but he was not a very good man. He was a very good man, but he was not a very good man.

1900. R. J. HANCOCK  
 Minister of Finance

"I am a regular reader of Maclean's. I congratulate you upon its high quality."

**ARTICLES** which Maclean's has published during the last few years have influenced not only the course of events in Canada but the march of international affairs. In Geneva, in Paris and in London, as well as in Ottawa, Maclean's has played a constructive part as a source of accurate and important information.

Maclean's is read and respected by substantial, worthwhile people in every part of Canada. They like the consistently Canadian character of Maclean's; they enjoy the enterprise and alertness which each issue demonstrates.

No other magazine is so frequently quoted by Canadian public men as Maclean's.

# It's a Record

**WHEN** the *Maclean's* War Series was first published, it was a record. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home.

It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home.

It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home.

It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home. It was a record that was both a record and a home.

## Your Horoscope

Readers of *Medicine* who have acquired *Horoscope Readings from Mrs. Margaret Campbell* will find these columns helpful.

This completes the printing of the planetary system. If any subscribers have missed any column, or sections of it in their *Horoscopes*, we shall be glad to supply them upon receipt of a stamped addressed envelope with a list of the sections missed.

These readings are Mrs. Margaret Campbell's applications of the rules of astrology to find down in real human nature the seeds on our bodies. Mrs. Campbell places in personal advice to doctors the factors to solve your patients' problems and these readings are not intended for such purposes.

PINEOLEUM  
BIG BOTTLE

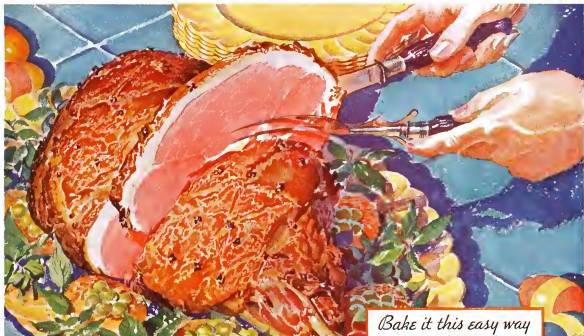

# A joyous Easter, ladies!

HERE'S A FINER HAM + THE OVENIZED HAM

**YOU DON'T PARBOIL IT!**

## Bake it this easy way

1. Place a whole or half Premium Ham in a roaster. Add 1 cup of water, and cover the roaster.
2. Bake in a slow oven (325°), allowing 25 minutes a lb. for a large whole ham, 15 minutes a lb. for smaller (up to 12 lb.) hams or half hams.
3. When ham is done, remove from oven. Lift off rind. Score surface and dot with cloves, rub with mixture of 15 cup brown sugar and 1 tbsp. flour. Broves, uncovered, for 20 minutes in a moderate oven (350°).

### FOR EASTER

Turned ham with fresh meat (or vegetables). Sprinkle with butter with cream and sugar. If you have, use a cold canned and/or fresh ham, add carrots, and bake covered.

THIS Easter you can serve baked ham that is tenderer, richer in flavour, more delicious than ever before... yet is actually more easily prepared! Prepared, indeed, without parboiling.

You can do this if you buy Swift's Premium For Premium, now Ovenized, is marvelously mild and tender.

Ovenizing, Swift's special method of smoking hams in ovens, has perfected the results of the famous mild Premium cure. Has developed a delicacy of texture and smooth richness of flavour unique in hams.

So it is absolutely unnecessary for you to parboil this kind of ham. *Centre slices* you can broil or fry just as you buy them! If it's a whole or half ham simply bake according to directions at the right.

You'll find, honestly and truly, that the ham you prepare this easier way is a finer-tasting ham. Just try it and see how the compliments shower down!

But be sure that the ham is Swift's Premium. That's essential for success. Every Swift's Premium Ham is Ovenized. No other kind is. Swift Canadian Co., Limited

## SWIFT'S PREMIUM HAM

SWIFT'S PREMIUM BACON ALSO IS OVENIZED  
NEW TENDERNESS • NEW RICHNESS OF FLAVOUR

Notice how Swift's Premium Ham is introduced by the brown dots you will find on every single slice.

## It's Ovenized
